

EnvisionTEC Expands Reach in France with New Distribution Partner 3D New Print

GLADBECK, Germany, April 11, 2018 — EnvisionTEC GmbH today announced that it has expanded its reach in the French market with the addition of Nantes and Bordeaux-based 3D New Print as a new distributor of its 3D printing solutions for industrial and manufacturing markets.

“Adding 3D New Print to our list of distinguished distributors in France provides exciting new opportunities for customers to receive the high quality, high precision solutions that EnvisionTEC are renowned for,” said Anton Lopez, EnvisionTEC’s Regional Sales Manager for France. “3D New Print enjoys a fantastic reputation in the industrial and manufacturing space and we look forward to working with them.”

3D New Print will now sell and service the entire range of EnvisionTEC large frame 3D printers and materials in the French industrial and manufacturing market, supplementing EnvisionTEC’s existing specialist distributors who serve the jewellery and dental markets. 3D New Print will provide product installation, commissioning and after sales services to the industrial and manufacturing space.

“The addition of EnvisionTEC as a brand takes 3D New Print to the next level,” said Managing Partner at 3D New Print, Christophe Desarthe. “EnvisionTEC’s portfolio offers us the ability to provide truly professional level 3D printing technology into the manufacturing space. We look forward to working with EnvisionTEC to provide these exceptionally accurate 3D printers and materials.”

3D New Print supports manufacturers across France with project management, the production of prototypes, model and parts. And the supply, training, service and support of 3D printers and materials.

About EnvisionTEC

EnvisionTEC is a leading global provider of professional-grade 3D printing solutions. Founded in 2002 with its pioneering commercial DLP printing technology, EnvisionTEC now sells a number of printer configurations based on six distinct technologies that build objects from digital design files. The company’s premium 3D printers serve a variety of medical, professional and industrial markets, and are valued for precision, surface quality, functionality and speed.

About 3D New Print

3D New Print is an independent dealer and specialist in consultancy, implementation and maintenance of 3D printers. The business is located in Nantes and Bordeaux France. Following the start-up business model, which enter new markets with a specific new technology, 3D New Print wanted its offers to adapt to the need and the size of its customers; that’s why 3D New Print chose EnvisionTEC and has invested in a high quality laboratory and showroom.
