

Irish Dental Equipment Supplier Signs as EnvisionTEC's Latest Distribution Partner

GLADBECK, Germany, May 1, 2019 — Ireland and UK based Quintess Denta, a well-respected agent of many top dental manufacturers, is the latest distributor for EnvisionTEC's dental 3D printers and materials through its new specialist 3D printing sister company, 'QUORIS 3D.' The business which operates across the UK and Ireland brings a wealth of knowledge about the industry and is one of the first authorised distributors to sell the Envision One cDLM dental 3D printer.

Peter Greene, Managing Director at Quintess Denta said: *"Quintess Denta are delighted to launch 'QUORIS 3D' alongside our new partnership with EnvisionTEC. This move into the exciting world of 3D printing gives our customers access to the best dental and orthodontic focussed 3D printers and materials in the market."*

Greene continued: "Adding this portfolio of solutions compliments our current range of products and adds some truly ground-breaking technology. The Envision One machine in particular will change the way dental and orthodontic professionals look at 3D printing. It brings the potential to move production in-house, reduces costs, improves the speed of treatment for patients and the quality of finished appliances. Through 'QUORIS 3D' we have assembled a unique team of experts in this field and we are confident in our ability to provide the best possible service and advice available."

Mike Lemaic, Sales Manager at EnvisionTEC said: *"We wish Quintess Denta and its new company 'QUORIS 3D' the very best of luck for the future. Our agreement with this enthusiastic and respected team ensures that their current customers and future ones are getting access to the best 3D dental solutions in the market."*

Lemaic continued: "EnvisionTEC 3D printing solutions compliment their existing offerings, and with these and their in house expert teams provide the perfect partners for any dental lab or practice. We look forward to supplying the team at 'QUORIS 3D' and its customers the machines, materials and expertise they need to stay successful and grow."

RELEASE ENDS

About EnvisionTEC

EnvisionTEC is a leading global provider of professional-grade 3D printing solutions. Founded in 2002 with its pioneering commercial DLP printing technology, EnvisionTEC now sells more than 40 printer configurations based on six distinct technologies that build objects from digital design files. The company's premium 3D printers serve a variety of medical, professional and industrial markets, and are valued for precision, surface quality, functionality and speed.

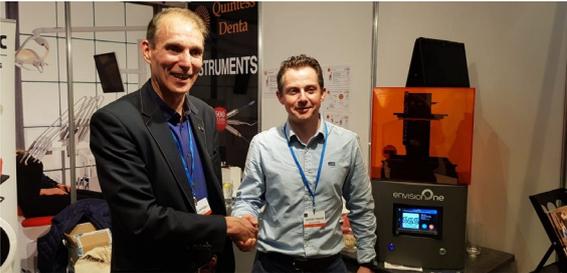

About Quintess Denta

Quintess Denta are a growing and respected supplier of instruments and equipment to dental practices across the UK and Ireland. Established in 2010, they supply dental instruments, dental equipment, dental chairs, dental implants, dental consumables and much more. They have made the move into the 3D printing market after much research across the

envisionTEC

globe and their new company 'QUORIS 3D' will provide a full range of 3D printing services to both dentists and technicians.
